

U.S. Army Futures Command (AFC) is the fourth Army Command and its creation is the most significant Army reorganization since 1973. **Army Futures Command**: **Modernizes the Army for the future**.

The Army Materiel Command (AMC) and Army Futures Command (AFC) held a ceremony on Jan. 31, transitioning the U.S. Army Research, Development and Engineering Command (RDECOM) from AMC to AFC. The official date of the transfer was Feb. 3, during which RDECOM became Combat Capabilities Development Command (CCDC).

As the Army's newest command and the largest of AFC's three major elements, the CCDC comprises of eight major competency areas including:

CCDC Armaments Center – formerly ARDEC

CCDC Aviation & Missile Center – formerly AMRDEC

CCDC Army Research Lab

CCDC Chemical Biological Center – formerly ECBC

CCDC C5ISR Center – formerly CERDEC

CCDC Data & Analysis Center – formerly AMSAA

CCDC Ground Vehicle Systems Center (GVSC) - formerly TARDEC

CCDC Soldier Center – formerly NSRDEC or Natick
