Test your Technology at the Army's Unique Laboratories!

Do you have a ground vehicle technology that needs testing? The U.S. Army DEVCOM Ground Vehicle Systems Center (GVSC) may be just the place for you.

Let us introduce you to GVSC's unique laboratory and testing capabilities and the expertise of our technicians, scientists and engineers.

At GVSC, we have over 800,000 square feet of Administrative Engineering / Laboratory Space between facilities at the Detroit Arsenal in Warren, Michigan, and Selfridge Air National Guard Base in Harrison Township, Michigan. GVSC also has partnerships to access other installations across the country including Fort Johnson, Louisiana, and the Michigan National Guard's Camp Grayling Joint Maneuver Training Center. These laboratories are available for industry members of any size or universities to utilize when available through Test Service Agreements.

What is a Test Service Agreement?

TSA's allow commercial entities to utilize the unique capabilities of government labs. The government is reimbursed for operational and equipment expenses but cannot compete with private industry. For detailed information about all our laboratory capabilities visit our website at:

<https://www.usarmygvsc.com>

COLLABORATE WITH GVSC

The Ground Vehicle Systems Center (GVSC), located in Warren, Michigan, on the Detroit Arsenal, is the United States Army's laboratory for developing advanced military ground vehicle technologies and providing systems engineering and integration expertise that delivers unmatched ground vehicle solutions. GVSC is part of the U.S. Army Combat Capabilities Development Command (DEVCOM), a major subordinate command of the U.S. Army Futures Command.

If your organization would like to partner with GVSC, we employ several collaborative methods to engage industry, academia and other government agencies, depending upon stakeholder requirements. Some options are: Small Business Innovation Research (SBIR), Small Business Technology Transfer (STTR), Cooperative Research and Development Agreements (CRADAs) and Test Service Agreement (TSA).

To start communications with GVSC go to our website at:
